Introduction

This survey was designed to give you an insight into how your service is viewed by your customers. The report outlines the information that has been collected and analysed from your customers in the form of tables and graphs. Comparative benchmark data is provided where applicable. From the report you will be able to clearly pinpoint areas where you performed well and also those areas where you feel that improvements may be needed.

Details of your survey

157 patient questionnaires were sent out and 61 completed questionnaires were returned giving a response rate of 39%.

A breakdown of all the questionnaires that were sent out and returned is provided in the following table:

Designation of questionnaires sent out	Number of questionnaires
Returned questionnaires	
Successfully completed by patient	61
Questionnaire returned to office undelivered	1
Unreturned questionnaires	
Unreturned questionnaires	95
Total number of questionnaires	157

Q1: Why did you contact the supplier? To submit a NHS prescription for:

Customer comments

Appendix 1 - Specified other reasons for contacting supplier from question 1:

- The hospital contacted the supplier (Tameside Hospital).
- Stoma nurse.
- I was put under your care many years ago by my nurse.
- Very good.
- I had moved home with a subsequent delay in supplies whilst I found and registered with a new GP surgery.
- To check my prescription/order was going through.
- All arranged by Stepping Hill Hospital. Now through Fittleworth.

Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- A disappointing company who start off well but rapidly decline! We have found this with many companies. There is
 no care, only an interest in financial gain. Unfortunately we are "stuck" with them as all companies are going to
 same way. No empathy or compassion for the consumer who would be unable to function without critical supplies.
- I think the level of service, advice and emergency next day service is excellent most of the time I have the same person who phones me each month, they are so caring great advice and always send me the right amount to me each month, knowing my stoma is unpredictable and each month I may need more or less, I have not a bad word to say about your company.
- Extremely happy with the service.
- The service I receive is excellent and I thank you for it.
- Fittleworth are a company that goes above and beyond to help all their customers. I think all staff are polite and helpful. Always do what they say. I am glad my stoma nurse recommended Fittleworth. Well done Fittleworth!
- I cannot recommend Fittleworth highly enough. Top quality service. Never had need to contact outside normal hours as at Q13. I am contacted every month to ascertain if I require anything, leaving a message if I am not in. Delivery is always on date advised. Very polite on telephone and helpful. Nothing too much trouble. Cannot think of how to improve what is already an excellent service.
- Re Q8 I do not present repeat prescriptions my doctor does. Re Q13 I have not had to contact the supplier's careline after hours.
- Always received excellent service. Items always in stock. Staff excellent.
- Everyone has been very helpful, Fittleworth are very caring.
- Brilliant. Thank you!
- Q6 and Q7 are not applicable to me. My prescription has always been available when requested. Re: Q8 My stoma nurse deals with this issue.
- I can find no improvement in the service. It is excellent. Never any problems. Very good.
- I can't remember any need to contact the service out of hours. I have always found the service friendly and reliable.
- Very good service.
- Poor communication between supplier, GP practice and me (the customer). I make regular orders, fairly often. Fittleworth claims the GP does not send through the e-prescription requested and the GPs say they have sent the prescription. Fittleworth do not notify me of difficulties until two days before my order is due, often too late for timely order and very frustrating situation!

Fittleworth Customer Feedback Report

Number of customers providing feedback: 61

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 61

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	56	1	2	0	2
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

(number of Very good ratings x 100.00) +(number of Fairly good ratings x 66.67) +(number of Fairly poor ratings x 33.33) +(number of Very poor ratings x 0.00) +(number of Don't know ratings x)

 $(56 \times 100.00) + (1 \times 66.67) + (2 \times 33.33) + (0 \times 0.00) + (0 \times 0)$

(total number of customer responses number of Non rated responses) (61 - 2)

Your mean percentage score for Q4a = 97%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean	Benchmark data (%)*					
	score (%)	Min	Lower Quartile	Median	Upper Quartile	Maximum	
Q4a Polite and took time to understand needs?	97	96	98	98	99	100	

*Benchmarks are based on data from 38 dispensing locations surveyed between October and December 2019 with 40 or more responses and a total of 2,879 returned customer questionnaires.
