#### Customer comments

### Appendix 1 - Specified other reasons for contacting supplier from question 1:

- To check on delivery dates due to supplies running low.
- I need to self-catheter after having to keep water pipe open after my operations.
- Patient has 24 hour care.
- Died son rang over two months ago!
- Bladder problems.
- Effected through L&D Hospital.
- Original contact arranged through NHS Hospital Lister Hospital in Stevenage.

### Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- I have been dealing with Fittleworth for three and a half years and find their service first class in every respect. Staff are always courteous and respectful, the only problem encountered has been the late issue of repeat prescriptions which is outside Fittleworth's control.
- I have always had excellent and prompt service.
- I am the care manager for patient. We are very happy with the service we receive from Fittleworth they always call
  about our order if there is a problem. The only problem we have is our surgery don't send the fax back to
  Fittleworth quick enough. Thank you for a great service.
- I am very happy with the service provided by Fittleworth. My bags are customised and always arrive exactly when I expect them. Fittleworth ring me in advance and ask if I need a repeat order. This is invaluable as I never run low and I don't forget to order.
- I am so happy with the service I receive from Fittleworth and would not wish to change ever.
- Their service is always polite and helpful.
- The free wipes are wonderful but I don't use them as they contain plastic. It would be great if all suppliers provided
  plastic-free wipes.
- In the six years I have been supplied by Fittleworth they are a superb company, five star in every way. Deliveries are received bang on time and of the two occasions problems have arisen, solved superbly.
- I have had my stoma appliances provided by Fittleworth since my operation several years ago. Disposable bags and wipes and envelope are always included. The delivery service has been very good.
- More than satisfied with the service.
- I only receive new catheter supplies, so many of the questions are not applicable to me. I would say though that all contact with the supplier has always been excellent.
- I have had the services of Fittleworth's delivery for two years. They are easy to contact and order my prescription. With only one exception I did not have product number to hand for the order and the receptionist was important and said it wasn't possible to record the order. Without fail, the delivery drivers are friendly, courteous and on time. Thank you.
- Sometimes my deliveries aren't always on time and I've had times when my stoma delivery hasn't included everything I ordered; I also wasn't told some of my supplies were going to be late. Re Q11d - I would like more wipes.
- Excellent service.
- Very happy with Fittleworth.
- Excellent, can they sort Brexit please!
- I did have a few teething problems in the first three months between GP and Fittleworth not always informed by delay from GP prescription and Fittleworth being able to carry out order was stressful.
- Fittleworth have never let me down. They are an excellent company. I hope to be dealing with them for many years to come.
- Communication is generally poor or even non-existent if either the GP is being slow, or they themselves get the
  order wrong.
- My husband has dementia so I am answering on his behalf.

### **Fittleworth Customer Feedback Report**

Number of customers providing feedback: 80

#### Customer comments

- Disposable wipes are getting smaller and thinner. Not a convenient wipe to use for poo. Please revert to boxes for delivery thick non-recyclable plastic bags are not eco-friendly.
- I feel that the service that I receive from Fittleworth is far above excellent. Every time I have conversations the people I speak to are very kind and caring. They are amongst the best.

Number of customers providing feedback: 80

#### Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 80

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	75	3	0	0	2
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

(number of Very good ratings x 100.00) +(number of Fairly good ratings x 66.67) +(number of Fairly poor ratings x 33.33) +(number of Very poor ratings x 0.00) +(number of Don't know ratings x )

 $(75 \times 100.00) + (3 \times 66.67) + (0 \times 33.33) + (0 \times 0.00) + (0 \times 0)$ 

(total number of customer responses number of Non rated responses) (80 - 2)

Your mean percentage score for Q4a = 99%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

### Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean	Benchmark data (%)*					
	score (%)	Min	Lower Quartile	Median	Upper Quartile	Maximum	
Q4a Polite and took time to understand needs?	99	96	98	98	99	100

\*Benchmarks are based on data from 38 dispensing locations surveyed between October and December 2019 with 40 or more responses and a total of 2,879 returned customer questionnaires.
