#### Customer comments

### Appendix 1 - Specified other reasons for contacting supplier from question 1:

- Cancer nurse.
- The supplier was contacted by the hospital on my behalf.
- Stoma nurse did it on my behalf.
- They contact Kingsgate surgery Bathgate.
- Slow response of health centre.
- The company contacts me three to four weeks.
- My stoma nurse recommended you.
- Needed extra supplies as going on holiday.
- Just to see when my prescription would arrive.
- In response to a call from the supplier about repeat prescription.

### Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- I must add that Fittleworth in Glasgow give prompt and excellent service with which I'm delighted.
- They phone me so I can order. They are very competent in every way.
- I have to order my pre-cut stoma bags two weeks ahead of delivery. On one occasion at Easter I was to get my
  delivery the day before Good Friday, but Fittleworth phoned late the day before saying I would not get my delivery
  on time. I was panicking about not having supplies. They sent me five to keep me going.
- Excellent service.
- Some questions are not directly applicable. Fittleworth were recommended and appointed as suppliers by nurses at stoma care clinic, Western General Hospital. They (Fittleworth) check with me one month after supply on whether I am ready to reorder. My supplies currently last longer so I phone them back when I need to reorder. They submit request for repeat prescription direct to my medical centre. Any change in prescription has, so far, been agreed in advance between me and stoma clinic nurses. Fittleworth service is, in all aspects, excellent. The staff are efficient, helpful, informative and friendly. That includes the delivery service and driver(s) who ensure safe delivery to me.
- I am very satisfied with the supplier. They phone me on occasion to ask if I need supply. Very helpful and patient on the phone. Thanks.
- My supplier has been very good and most helpful in every way.
- Very good service always friendly and helpful.
- Only problem ever was when our doctors retired and new practice set up. Dreadful service from medical service
  with them forgetting to issue prescription to Fittleworth on several occasions and then blaming Fittleworth for error.
  Fittleworth excellent at sorting this out.
- Q13 Never had to contact out of hours so I've put "Don't know".
- Very reliable and dependable.
- No improvement is required.
- Nothing.
- The problem with my wife's supplies is sometimes the doctors are late to send prescription, or get mixed up, as they have new staff and we have to wait.
- I find Fittleworth's service to be excellent.
- Fittleworth phones once a month. If I miss the call and need supplies I phone them. Delivery takes roughly two weeks. Very dependable.
- Staff excellent and everything delivered on time. On odd occasions we have not ordered enough and they have sent out emergency supplies very promptly.
- On a personal service to myself it has been excellent.

#### Customer comments

- I am extremely satisfied by the quality of the service I receive. As long as the patient is prepared and organised everything works like clockwork.
- I am very satisfied with the service from this company and find half the questions asked in this survey do not apply
  to me as I phone and ask for what I want and have never been disappointed.
- Fittleworth have been great. If I have run short, they have sent more out right away. They're so helpful and provide
  a great service.
- I am very happy with this service I have never been let down.
- I have found Fittleworth excellent to deal with. Their goal appears to be customer service first.
- If I have not called to put my order in they call me, it is a great service. Also due to issues I was going to run out of colostomy bags and they rushed me an emergency supply. I am very happy with the service.

### **Fittleworth Customer Feedback Report**

Number of customers providing feedback: 79

#### Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 79

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	78	0	0	0	1
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

(number of Very good ratings x 100.00) +(number of Fairly good ratings x 66.67) +(number of Fairly poor ratings x 33.33) +(number of Very poor ratings x 0.00) +(number of Don't know ratings x )

 $(78 \times 100.00) + (0 \times 66.67) + (0 \times 33.33) + (0 \times 0.00) + (0 \times 0)$ 

(total number of customer responses number of Non rated responses) (79 - 1)

Your mean percentage score for Q4a = 100%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

### Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean	Benchmark data (%)*					
	score (%)	Min	Lower Quartile	Median	Upper Quartile	Maximum	
Q4a Polite and took time to understand needs?	100	96	98	98	99	100	

\*Benchmarks are based on data from 38 dispensing locations surveyed between October and December 2019 with 40 or more responses and a total of 2,879 returned customer questionnaires.
