### Introduction

This survey was designed to give you an insight into how your service is viewed by your customers. The report outlines the information that has been collected and analysed from your customers in the form of tables and graphs. Comparative benchmark data is provided where applicable. From the report you will be able to clearly pinpoint areas where you performed well and also those areas where you feel that improvements may be needed.

#### Details of your survey

137 patient questionnaires were sent out and 64 completed questionnaires were returned giving a response rate of 47%.

A breakdown of all the questionnaires that were sent out and returned is provided in the following table:

Designation of questionnaires sent out	Number of questionnaires
Returned questionnaires	
Successfully completed by patient	64
Questionnaire returned to office undelivered	1
Unreturned questionnaires	
Unreturned questionnaires	72
Total number of questionnaires	137

#### Customer comments

#### Appendix 1 - Specified other reasons for contacting supplier from question 1:

- To follow up on a problem with an order placed online for myself.
- Contacted by NHS nurse.
- Faulty items received.
- Desperation re no adhesion on the pouches. Patient was in hospital with a very loose stoma and pouches were running out. Hospital pouches did not like her skin.
- Fittleworth call me.
- Arrange monthly supply usually supplier contacts me.
- My doctor sends in the prescription to Fittleworth, I fill it in and take it to my doctor.
- To check if they stocked a certain product.

# Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- Issues arise where stock levels are below the quantity ordered this is not known by order taken and follow up
  adjustments to order, balance delivery, etc., has to be arranged. Electronic prescription processing between
  surgery and supplier appears a cumbersome process. Surgery can adjust prescription request quantities for stock
  reasons I assume forced to order less, more often. Have tried recently to embrace online ordering system teething problems with not all required products being listed will persevere.
- Always been very helpful and friendly. No complaints at all. Very good all round.
- I am quite happy how things are and get an excellent service from Fittleworth. They are very reliable and my items are on time every four weeks. I have had the service of Fittleworth for the last six years.
- The service I have received from Fittleworth has always been excellent. The staff are friendly and helpful and the delivery service is discreet. Excellent service over many years.
- The only delay delivery, on a few occasions, has been delay from my surgery attending to order.
- Fittleworth Medical Ltd. provides an excellent service. I hope there are no plans afoot to change this.
- Super service. Good communication. No improvements needed.
- The best service I have ever had. I do not think you could improve anything. Thank you.
- Questions not answered are because the situation has not arisen.
- I want confirmation of receipt of prescription.
- I am contacted monthly to enquire my needs staff are fine and delivery is on time and delivery staff are fine also.
   No gripes at all.
- Fittleworth recommended by stoma nurse as after several years was having great difficulty with previous supplier. Best thing I ever did was to change to you.
- Regular checks of the adhesion of pouches. We have tried other pouches. Patient has been suffering from a very loose stoma for several months with five hospital stays so these other pouches did not get a fair trial.
- Fittleworth services is excellent. The issue is with the doctor's surgery not supplying the repeat prescriptions on time.
- Very satisfied.
- When I have previously requested my Fittleworth products online from my GP, my prescription has arrived at the local pharmacy without complimentary bags and wipes. For this reason I have preferred to control my order by phoning Fittleworth directly and arranging a delivery date when the order arrives with complimentary bags and wipes. I am now told by my GP that I must order through them. I am therefore concerned that complimentary bags and wipes are dispatched with each order.
- The service provided by this supplier has always been excellent.
- The service provided could not be improve upon. Always answer phone promptly and politely and ordering is very straightforward. Order always delivered on date specified at time of ordering.
- If there is a problem over bank holidays, there should be one supplier who can give advice or even send supplier in an emergency. There is no service for this although there are lots of suppliers out there, they could organise one supplier every bank holiday in case of emergency.

#### Customer comments

- My supplier has provided an excellent service over the years. However, since NHS reorganisation, especially over the last two years, there has been a catastrophic deterioration in GP services, which have effectively produced the very opposite of what was, presumably, intended: efficiency. GP staff are generally of very low calibre, causing untold problems for surgeries.
- I have always found Fittleworth to be exceptional in their service to me. I have been looked after by them for many years.
- Ref Q8. I have been using the same supplier for many years. I cannot remember them making any of the checks
  referred to. However, if I did not need an appliance I would not request one. If I was not satisfied or had a
  problem I would deal with it, not wait to be asked.

#### Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 64

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	60	3	0	0	1
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

(number of Very good ratings x 100.00) +(number of Fairly

good ratings x 66.67) +(number of Fairly poor ratings x

33.33) +(number of Very poor ratings x 0.00) +(number of

Don't know ratings x )	_ =	(60 x 100.00) +(3 x 66.67) +(0 x 33.33) +(0 x 0.00) +(0 x 0)
(total number of customer responses - number of Non rated responses)		(64 - 1)

Your mean percentage score for Q4a = 98%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100 Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0 Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100 Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

#### Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean	Benchmark data (%)*				
	score (%)	Min	Lower Quartile	Median	Upper Quartile	Maximum
Q4a Polite and took time to understand needs?	98	96	98	98	99	100

\*Benchmarks are based on data from 38 dispensing locations surveyed between October and December 2019 with 40 or more responses and a total of 2,879 returned customer questionnaires.
