Customer comments

Appendix 1 - Specified other reasons for contacting supplier from question 1:

- Repeat order.
- I did not contact Fittleworth, they contact me when supplies are getting low.
- Contacted by stoma nurse at Dewsbury Hospital.
- Someone told me at Fittleworth when I first had a catheter otherwise I wouldn't have known.
- They contacted me first because my prescription had not been sent by my doctors.
- Hospital nurse told me supplier.
- NHS organised this for me.
- I was started with the supplier by the hospital and everything is excellent.
- To request a delivery.

Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- Outstanding service!
- We have been using this supplier now for about a year. At first it was a bit of a "rocky road" but after about two/three months settled. I now find it very quick to reorder - just a quick call. It would be excellent if I could have a repeat prescription delivered monthly to take away the stress of reordering with a 14 days delivery period!
- Improve communication between courier and provider. Specific requests made were not adhered to.
- No complaints whatsoever. Excellent service, keep up the good work. Friendly and professional staff. Thank you.
- At this time, I am entirely satisfied with the service provided to me.
- Driver and service is very good.
- I rate Fittleworth services excellent.
- I have used supplies from Fittleworth over a period of years for different medical needs. The service and quality of the supplies have always been excellent and reliable. The delivery staff always pleasant and discreet. The telephone reminder system where they contact me if I have not sent an order in is very helpful. Overall, outstanding.
- Re Q2 - contact - Fittleworth normally contact me by phone in good time to ensure continuity of supply.
- Have always received excellent service from Fittleworth for the last six years. Very helpful telephone staff who ring to see if I need an order. Prompt, cheerful delivery service from the delivery driver. Wish all companies I deal with were as efficient and caring. Thank you.
- I have been satisfied with the service for many years and the delivery person is really pleasant. I just wish I could get a service like this every day. I would like to thank all your staff they make my life a lot easier.
- Complimentary wipes. Size reduced and only one packet delivered. Need two to cover one month. Bags two delivered. Only need one per month.
- We have always had the best service from the staff, delivery and any questions asked of all and are deeply grateful to them all. We know we can always rely on them with no worries and peace of mind. Thank you.
- First class service. No issues in many years.
- The service has been very reliable and I have no complaints whatsoever.
- No - always receive excellent service.
- Fittleworth have always provided me a first rate services and would recommend them to anyone.
- Everything that has been handled so far, has been of the highest standard.
- Fittleworth are brilliant. Cannot do enough for you.
- The supplier is very efficient. No issues in how or when they contact. Perhaps a repeat order could be in place so they don't have to ring monthly. Would speed service up!
- Great service! Can't think of an improvement.

Customer comments

- I have dealt with Fittleworth for over five years and their service is excellent. I have never had a problem and all staff are always helpful and friendly.
- Taking into consideration wet weather, the package should not be left on my doorstep exposed to the elements (inside it says store in a dry place - if arriving soggy this is already a problem). The outer package should state "Keep dry at all times".
- I have asked about different bags as the one I use is good but because it is only a plastic end, when full and I happen to bend down it opens the tap so it leaks. I have tried all the other types but they cause a mark on my body, so I have stuck with this bag as it works good otherwise.

Supporting documents

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 66

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	61	1	0	0	4
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

$$\frac{(\text{number of Very good ratings} \times 100.00) + (\text{number of Fairly good ratings} \times 66.67) + (\text{number of Fairly poor ratings} \times 33.33) + (\text{number of Very poor ratings} \times 0.00) + (\text{number of Don't know ratings} \times)}{(\text{total number of customer responses} - \text{number of Non rated responses})} = \frac{(61 \times 100.00) + (1 \times 66.67) + (0 \times 33.33) + (0 \times 0.00) + (0 \times 0)}{(66 - 4)}$$

Your mean percentage score for Q4a = 99%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean score (%)	Benchmark data (%)*				
		Min	Lower Quartile	Median	Upper Quartile	Maximum
Q4a Polite and took time to understand needs?	99	96	98	98	99	100

*Benchmarks are based on data from 38 dispensing locations surveyed between October and December 2019 with 40 or more responses and a total of 2,879 returned customer questionnaires.
