Introduction

This survey was designed to give you an insight into how your service is viewed by your customers. The report outlines the information that has been collected and analysed from your customers in the form of tables and graphs. Comparative benchmark data is provided where applicable. From the report you will be able to clearly pinpoint areas where you performed well and also those areas where you feel that improvements may be needed.

Details of your survey

150 patient questionnaires were sent out and 59 completed questionnaires were returned giving a response rate of 39%.

A breakdown of all the questionnaires that were sent out and returned is provided in the following table:

Designation of questionnaires sent out	Number of questionnaires
Returned questionnaires	
Successfully completed by patient	59
Questionnaire blank	1
Questionnaire returned to office undelivered	1
Unreturned questionnaires	
Unreturned questionnaires	89
Total number of questionnaires	150

Q1: Why did you contact the supplier? To submit a NHS prescription for:

Customer comments

Appendix 1 - Specified other reasons for contacting supplier from question 1:

- I was told about Fittleworth when I was in hospital by the stoma care nurse.
- The stoma nurse arranged for requirements to be delivered. I said I would like Fittleworth.
- Fittleworth contact me then my GP for prescription.
- Colostomy nurse, St Helier Hospital.
- Missed call from supplier so returning phone call to place an order.
- They ring me.

Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- When GP surgery fails to reply to Fittleworth's request for prescription, Fittleworth phone is so we can chase it. GP surgery rather poor at responding and check we have sufficient supplies.
- The service is very efficient.
- I have had Fittleworth for many years. They have always been great in every way, which has made life a little better.
- Whenever I phone up, the Fittleworth staff are always really friendly, understanding and helpful they even help me chase up my GP when they don't send prescription back on time.
- Very efficient service every time.
- The service is great. A number of these questions are not applicable (Q8, Q12) as I will always need the appliance and the stoma nurses to deal with all the checks/problems. Re Q13 I have never tried. Re Q5 & Q14 It is always the same supplier and all their details are on the order forms. Perhaps in the beginning they gave me more information but that was years ago and I don't need more information.
- The dispatch company used to make direct contact for a delivery time. Also packages just left on doorstep no attempt to ring doorbell. On more than one occasion packages left outside in the rain.
- The service is excellent. Sometimes the GP surgery send the prescription to Boots instead of Fittleworth, but Fittleworth always get it sorted out.
- I have been with Fittleworth for several years now and I am happy with the service they provide. Fittleworth call me
 once a month to ask what supplies I need they call my GP and request a prescription if there is a problem they will
 always call me. The delivery service is very good. I feel I can call Fittleworth and they will be extremely helpful. I
 have no worries at all.
- We prefer deliveries to home address and not to our local pharmacy.
- I'm not sure if I have even offered (August) my memory is not too good but the overall service from Fittleworth is
 excellent.
- In the several years I have used this supplier the service has been excellent. Cannot fault anything.
- Complimentary black disposable bags are unreliable. Complimentary wipes are non-biodegradable.
- I have always found the service provided to be excellent.
- When order is sometimes missing we give them a call and gets dealt with. Thank you.
- I have been delighted with the service you have given me to date. You have been very helpful.

Fittleworth Customer Feedback Report

Number of customers providing feedback: 59

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 59

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	57	1	0	0	1
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

(number of Very good ratings x 100.00) +(number of Fairly good ratings x 66.67) +(number of Fairly poor ratings x 33.33) +(number of Very poor ratings x 0.00) +(number of Don't know ratings x)

 $(57 \times 100.00) + (1 \times 66.67) + (0 \times 33.33) + (0 \times 0.00) + (0 \times 0)$

(total number of customer responses - number of Non rated responses)

(59 - 1)

Your mean percentage score for Q4a = 99%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean	Benchmark data (%)*					
	score (%)	Min	Lower Quartile	Median	Upper Quartile	Maximum	
Q4a Polite and took time to understand needs?	99	96	98	98	99	100	

*Benchmarks are based on data from 38 dispensing locations surveyed between October and December 2019 with 40 or more responses and a total of 2,879 returned customer questionnaires.
