Introduction

This survey was designed to give you an insight into how your service is viewed by your customers. The report outlines the information that has been collected and analysed from your customers in the form of tables and graphs. Comparative benchmark data is provided where applicable. From the report you will be able to clearly pinpoint areas where you performed well and also those areas where you feel that improvements may be needed.

Details of your survey

154 patient questionnaires were sent out and 64 completed questionnaires were returned giving a response rate of 42%.

A breakdown of all the questionnaires that were sent out and returned is provided in the following table:

Designation of questionnaires sent out	Number of questionnaires
Returned questionnaires	
Successfully completed by patient	64
Questionnaire blank	1
Questionnaire returned to office undelivered	1
Patient deceased	1
Unreturned questionnaires	
Unreturned questionnaires	87

Customer comments

Appendix 1 - Specified other reasons for contacting supplier from question 1:

- Contact was made for me by stoma nurse at the hospital.
- Supplied after TURP operation at Guy's Hospital London.
- Order my stoma items.
- As advised by nurse.
- NHS.
- To place an order.
- Reordering medical supplies on prescription from my doctor.
- Ordered by hospital urology department.
- Only contact supplier to request a repeat prescription.

Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- I am sorry I am not able to complete your survey properly. I am housebound and in my 90s. I find your service excellent in everything that applies to me for which I thank you.
- I phone my prescription and Fittleworth deal with the rest. Service is excellent, staff polite and caring as is the delivery driver.
- Self-insertion catheters supplied through Guy's Hospital. Your service I find excellent and I am fully satisfied.
- If the GPs surgery was sending the right prescription to the supplier, will help a lot. Surgery are not very good! GP very slow to send prescription to supplier!
- Do not change what is an excellent service. Staff are always helpful.
- Very happy with the people and service I receive.
- I have found over several years no fault, excellent communication, always helpful good organisation.
- I would like to complete our regular orders online. This would make the ordering process so much easier.
- No they are very good.
- It was unfortunate that I could not return an unopened (completely sealed) box of bags. It is a waste.
- Quite a lot of questions not relevant, however the service provided by Fittleworth has been excellent.
- Fittleworth have always been very helpful they phone me every month for my order.
- They always give excellent service, ready to solve your problem. I've never spoken to an unkind person. I think everyone works to the maximum to help others.
- I receive only catheters and reorder from Fittleworth direct not through my doctors practice.
- A very good service.
- It would be really helpful if the order could be done electronically as well as the prescription. My mum has to take the letter to the surgery each time.
- This is an excellent company who are always polite and helpful. Cannot fault them in any way.
- Fittleworth have always dispensed my requirements perfectly. I order items directly from Fittleworth and they
 request the prescription from the GP practice! The system has on two occasions fallen down. First occasion the
 prescription was not returned to Fittleworth but sent to the local chemist who issued the items (minus wipes and
 disposal bags). On the second occasion the prescription was filled by Fittleworth and a week later the chemist. The
 problem here appears to be the GP practice and how they deal with the prescriptions. I dislike the supply from
 chemist because each box/item has a name label on it which takes a considerable amount of time to remove
 before putting out for recycling. I don't like my details being public knowledge!
- Fittleworth have been supplying me for several years. All of their staff are helpful and polite. Everything I have ever ordered has been delivered on the date agreed. I have never had any occasion to fault from in any way.

Customer comments

- I have just two comments around the same piece of problem. They do not take online payments, only cheques or payment over the phone. The reason for my poor review on the handing over the call is because of this. They never do when I want to pay and have to wait for someone else to call me later and then give all my card details over the phone. Very unsafe and unprofessional.
- Website has recently not been working to make orders this is essential and has lead to me taking longer to make my orders. Where the doctor's surgery hasn't fulfilled my prescription on time, Fittleworth leave it until the last minute to chase them/let me know. This isn't the most helpful/convenient service.
- This questionnaire did not include questions about issues between the supplier and a patient's GP. Frequently, Fittleworth are challenged by my GP about a prescription and have to chase. This is an excellent service provided by them otherwise I would have to chase.
- We have had an occasion where we ordered a repeat prescription but somewhere we were only sent part of it and until the delivery arrived we did not know. We really needed the products and had to pull stoma bag off which really hurt. We have been having the same prescription for a year and do not know why this happened.
- My doctor's practice have made mistakes (items omitted). If the prescription does not match my order Fittleworth contact me as soon as they receive the prescription so that I can contact the med practices to correct.
- When placing an order to ask if there is anything on the order that is needed sooner than the date given.
- The service from the staff on the phone is very good.
- I have no complaints you have been wonderful in every way I cannot praise you enough and would like to thank you all for the service which helped me so much.

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 64

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	60	4	0	0	0
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

(number of Very good ratings x 100.00) +(number of Fairly

good ratings x 66.67) +(number of Fairly poor ratings x

33.33) +(number of Very poor ratings x 0.00) +(number of

Don't know ratings x)	_ =	(60 x 100.00) +(4 x 66.67) +(0 x 33.33) +(0 x 0.00) +(0 x 0)
(total number of customer responses - number of Non rated responses)		(64 - 0)

Your mean percentage score for Q4a = 98%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100 Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0 Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100 Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean	Benchmark data (%)*				
	score (%)	Min	Lower Quartile	Median	Upper Quartile	Maximum
Q4a Polite and took time to understand needs?	98	96	98	98	99	100

*Benchmarks are based on data from 38 dispensing locations surveyed between October and December 2019 with 40 or more responses and a total of 2,879 returned customer questionnaires.
