Customer comments

Appendix 1 - Specified other reasons for contacting supplier from question 1:

- To change cut size of pouch.
- Did not like see through bag and am allergic to plaster which surrounds bag.
- NHS prescriptions are submitted direct to Fittleworth and reviewed annually by my GP surgery.
- Stoma nurse.
- I did not contact my supplier.
- Advice on changing prescription.
- Doctor.
- To check to see if my order has been processed.
- To ask the day of delivery.
- To find out if my surgery had sent in the prescription I needed.
- I did not.
- My local hospital arranged everything for me. My doctor sends the prescription every month for supply of catheters.
- The stoma nurse put in my request as I had surgery in August, which then required a change in prescription.
- To check whether or not the prescription had been received from the GP as my husband was running out of supplies.
- Check if EPS received.
- Because I have a stoma.
- Items missing from prescription order and waiting a long time for delivery.
- To check that prescription has been sent before and when I can expect delivery.
- · To check delivery time.

Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- The service is excellent, no complaints at all! The receptionists are friendly and nothing is too much trouble for them. Keep up the good work, no improvement needed as far as I am concerned.
- The service is very good and staff are helpful. I have no input into prescription asked for by you as it is signed and approved by doctors surgery.
- On three occasions have been left with no supply once you deleted my order in error. Once you promised it the next day but it arrived three days later. No supply and told to go to hospital to pick some up!
- My complementary wipes allowance was decreased and I found it difficult to get some more issued. I was advised as they were "complementary" I couldn't have more. I challenged this and was allowed a few extra.
- The only improvement I can see is to go back to the old system of supplies where you did not need a repeat prescription every time supplies are needed.
- Fittleworth have always been very friendly and helpful.
- My prescription is electronically sent to Fittleworth direct from doctors. I receive an email from Fittleworth once a month as a reminder that prescription is due.
- Great service never had any problems.
- Everything is perfect. Gold star.
- The service was better when I was able to order from the supplier, it would take 48 to 72 hours to arrive. Ordering
 repeat prescription via the doctor surgery can take anything up to 10 days and the prescription has not been
 received by the supplier on odd occasions.
- · Very good service, pleased.
- I think that for every box of bags should be one packet of dry wipes.

Customer comments

- I have always been impressed by the Fittleworth supplies and delivery.
- Re Q3 Usually very easy. The last call was when there were a lot of calls to the supplier. I was unable to wait in the queue for a long time as my husband had a hospital appointment. So we were very surprised and grateful when we were contacted the next day by the supplier who had noticed I had tried to contact them before. Excellent service.
- Fittleworth first class.
- We would like to order direct from Fittleworth but my GP won't allow us to. This results prescriptions being requested each time and the GP then orders (too much or not enough of some items) sometimes.
- One of the few people who I have contacted recently who are efficient, know what they are doing and don't get it wrong.
- Order to doctor and they pass on, whenever I have spoken to Fittleworth staff they are always very helpful and appreciate service delivery man also very good and polite.
- Only have catheters delivered.
- It seems to take around two weeks plus from request to delivery. GP tells me they send the order two days after receipt. Other items through chemists are there in that timeframe. Fittleworth items need to be supplied quicker. I need to be informed of inability to supply as soon as possible, to enable me to make alternative arrangements. Not ignored!
- I find CliniMed send out to a friend of mine all the new things that come out to help with stoma, etc., and Fittleworth never let you know about any new items. But service and staff excellent.
- I have nothing to complain about have had delivery for the last few years when I have phoned all has been delivered in a warm, friendly manner.
- I find the service very efficient.
- There is nothing they can do to improve as they are attentive, helpful and super respectful when I do call them.

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 82

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	74	5	0	0	3
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

(number of Very good ratings x 100.00) +(number of Fairly good ratings x 66.67) +(number of Fairly poor ratings x 33.33) +(number of Very poor ratings x 0.00) +(number of Don't know ratings x)

= $(74 \times 100.00) + (5 \times 66.67) + (0 \times 33.33) + (0 \times 0.00) + (0 \times 0)$

(total number of customer responses - number of Non rated responses)

(82 - 3)

Your mean percentage score for Q4a = 98%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean		Ben	chmark dat	a (%)*	
	score (%)	Min	Lower Quartile	Median	Upper Quartile	Maximum
Q4a Polite and took time to understand needs?	98	97	98	99	99	100

*Benchmarks are based on data from 38 dispensing locations surveyed between September and November 2020 with 40 or more returned questionnaires and a total of 5,352 returned customer questionnaires.
