Customer comments

- When I need a repeat prescription I request it online via my GP surgery. A few days later the items are delivered to the concierge of my apartment block. That is the way I interact with my chosen DAC. Sorry - almost every question here is irrelevant to the way the system actually operates for me.
- Re Q8 & Q12 - I don't see this as applicable to Fittleworth as they have never seen me, my stoma or initiated any of the processes by which my appliances were sized, typed or ordered. This started at the hospital and was followed up by stoma nurses at my house. This care is available from a stoma nurse dedicated to this area of Norfolk. I have used them for any problems I have encountered.
- No problems. Excellent service.
- The service is excellent.
- Excellent lifeline for me. Big thank you.
- Fittleworth have been really good telephoning me to see if I'm OK. How I'm managing with my stoma, giving dietary advice, etc. Informing me on keeping my stoma from trauma. Excellent service.
- Excellent service. All staff deserve a medal.
- Always been treated politely and respectfully by any staff who have contacted me by phone or have answered my postal communications - it's always been a pleasure dealing with Fittleworth staff so 'improved'? I don't think so!
- I am very happy with all at Fittleworth, they all do a great job. I wish I could thank every one of them I have had Fittleworth for many years, I am now in my 80s and am very grateful to them all.
- Have never had a problem in several years of using the service.
- Service is very good.
- I have found Fittleworth extremely efficient, knowledgeable, polite, friendly, informative, and caring. Very well done.
- Everything good.

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 133

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	129	3	0	0	1
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

$$\frac{(\text{number of Very good ratings} \times 100.00) + (\text{number of Fairly good ratings} \times 66.67) + (\text{number of Fairly poor ratings} \times 33.33) + (\text{number of Very poor ratings} \times 0.00) + (\text{number of Don't know ratings} \times 0)}{(\text{total number of customer responses} - \text{number of Non rated responses})} = \frac{(129 \times 100.00) + (3 \times 66.67) + (0 \times 33.33) + (0 \times 0.00) + (0 \times 0)}{(133 - 1)}$$

Your mean percentage score for Q4a = 99%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean score (%)	Benchmark data (%)*				
		Min	Lower Quartile	Median	Upper Quartile	Maximum
