Customer comments

Appendix 1 - Specified other reasons for contacting supplier from question 1:

- · ? Delivery day.
- The home visit stoma nurse.
- Colostomy nurse.
- To complain about some pouches where the outer layer was parting from the inner at the edges, i.e. poor sealing.
- To find out what had happened to my order the doctors said they had put the prescription in you said they hadn't spent most of the afternoon on the phone.

Appendix 2 - Customer comments from question 16 about any of the questions and how the service from this supplier could be improved:

- I still don't understand why the supplier has to request that the GP surgery has to issue to new prescription to the supplier every time I request further equipment. Prescriptions for medications are usually valid for 12 months before they are reviewed by the practice. Why not the same for appliances?
- I am totally happy with the service Fittleworth provide and their reliability and politeness.
- Always courteous and polite could not wish for a better supplier. Thank you Fittleworth.
- I would just like to say I've been using Fittleworth products for many years from where I got the deliveries from Bingley, West Yorkshire. My driver from there was very good and always on time. Now DHL deliver any time on the day stated sometime the next day and at times had to ring department what's happened to it. Could you explain why changed delivery people?
- In recent times supplier has not noticed what I ordered and tried to supply something not required, i.e. ordered wet wipes and supplier wanting to send dry wipes or disposal bags.
- I have had great difficulty in contacting Fittleworth on the freephone number. It is automatically put on to an answer message saying lines are busy. This has applied at various times of day, e.g. 9:00am, 11:00am, 1:00pm, 4:00pm, even 7:30pm and after 20 minutes you give up trying!
- Until this year they (Fittleworth) gave a brilliant service, now, phones not answered, line wait times, prescription mess ups, missing products, long delivery times, never enough stock, I could go on. Sort it out.
- The recorded message is difficult to hear. It is distorted by crackling and the volume is (perhaps fortunately with the distortion) very quiet and often fades out. This happens with both landline and mobile phones.
- Sometimes I have received the wrong items when I have needed to change devices. This can be frustrating. It appear that my GP surgery is at fault, but they often claim they have not got the new details through.
- Service always very good, my delivery is always on time.
- My only problem has been communication between Fittleworth and my surgery seems to break down and I am not always supplied with the items I require in seven years this has only happened on a few occasions, notably the last two months!
- Your service is excellent.
- My repeat prescription came from my GP straight to Fittleworth and I get it delivered to my door. Thank you and phoning the staff is very helpful and reassured.
- I order my items at the doctors surgery who send a prescription through to Fittleworth.
- · Everything was good when I ordered it all.
- Before COVID-19 Fittleworth were an excellent service never had any problems whatsoever but this last year has been awful, not been able to get through on phone, orders being late and not always getting the full order required. I feel every order I have to chase and I panic if I don't get on time.
- Recent lengthy time for phone calls to be answered (other than at 8:30am when answered quickly) should now have been worked out as the company has increased staffing. This has been the only problem I have experienced in three years otherwise excellent throughout in service.
- Get someone to answer phone or improve the reply service, i.e. a call back service or a number in queue.
- Supplier service very good, only on a few occasions item missed, but this is due to doctors surgery prescriptions and not the supplier's fault. (Items missed not being very important, spray or wipes).

Customer comments

• There seems to be a mix up between my doctors surgery and yourselves, my doctors have said we have to put prescriptions in to them not order direct but this seems to get mixed up then my order doesn't arrive the last order after several long phone calls I only got wet wipes and night bag and never received dry bags, which I was told would be in on 20/12/21. I have now put in another order to see if this works before I run out completely.

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all customers who completed the question. It is expressed as a percentage - so the best possible score is 100%. Non-rated responses (blank/spoilt or 'Don't Know') are not used in the score calculations. (A blank response is where a customer did not respond to the question and a spoilt response is where more than one tick box option was chosen or the questionnaire was defaced).

Example from your Q4a Polite and took time to understand needs?

Total number of customer responses = 84

Questionnaire rating scale	Very good	Fairly good	Fairly poor	Very poor	Non rated responses
Number of ratings	75	5	1	0	3
Value assigned to each rating	100	66.6666	33.3333	0.00	n/a

(number of Very good ratings x 100.00) +(number of Fairly good ratings x 66.67) +(number of Fairly poor ratings x 33.33) +(number of Very poor ratings x 0.00) +(number of Don't know ratings x)

= $(75 \times 100.00) + (5 \times 66.67) + (1 \times 33.33) + (0 \times 0.00) + (0 \times 0)$

(total number of customer responses - number of Non rated responses)

(84 - 3)

Your mean percentage score for Q4a = 97%

The same basic calculation method is used for all the questions where a mean percentage score has been provided, but the values assigned to the ratings will differ depending on the number of rated responses available.

For ease of understanding, below are the details of the values assigned to the ratings in each question where we have provided a mean percentage score:

Q3 - Not at all easy = 0, Fairly easy = 50, Very easy = 100

Q4 - Very good = 100, Fairly good = 66.6666, Fairly poor = 33.3333, Very poor = 0

Q9 - Not at all satisfied = 0, Not very satisfied = 33.3333, Fairly satisfied = 66.6666, Very satisfied = 100

Q15 - Poor = 0, Fair = 25, Good = 50, Very good = 75, Excellent = 100

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Question	Your mean score (%)	Benchmark data (%)*				
		Min	Lower Quartile	Median	Upper Quartile	Maximum
Q4a Polite and took time to understand needs?	97	94	97	97	98	100

*Benchmarks are based on data from 38 dispensing locations surveyed between November 2021 and February 2022 with 40 or more returned questionnaires and a total of 4,086 returned customer questionnaires.

Customer Questionnaire

At Fittleworth we are always looking to improve our service. We have decided to take a moment to collect the views of our customers. We will ask about your experience and the services you receive from Fittleworth. We have partnered with CFEP UK Surveys to do this. All responses are anonymous.

To complete the survey, please mark the boxes like this 🗵 with a blue or black ball-point pen. If you change your mind just cross out your old response and make your new choice. If you are unable to answer a question, or a question doesn't apply to you, please leave it blank. Once the survey is complete, please post it using the pre-paid envelope provided.

Alternatively, if you wish to complete the questionnaire online, a web version can be found at:
